THE IDEA: TURN THE CORNER

You dream. You plan. And plan some more. Until you realize you don't need to cut corners on quality to afford lasting beauty and a lifetime supply of organization space. How? Just be creative with your corner cabinets. Onward.

When you want what you want—such as the perfect butler's pantry—Custom Choice™ is there for you.

THE IDEA: NEUTRAL PARTY

What does one wear to a celebration of simplicity? Cabinetry with a deep, rich accent finish contrasted against cool neutrals are in. Loud colors and excessive accessorizing: definitely out.

THE IDEA: LIFE'S A BEACH

You've made it. You've earned that daily walk along the shoreline, and it's a beautiful revelation when you discover you can bring the pleasures of being outdoors in. Expansive views, tranquil beach colors, natural elements... Breathe it in.

WARNER

THE IDEA: AT FIRST SIGHT

When you have to remind yourself to breathe, that's when you know—you've found The One. A space you can organize your life around, with just the right personality and functionality. Oh, heart be still.

OGILBY

10

The dust settles. The sun appears. And you find yourself at peace in a space of your own making — surrounded by everything you need (and nothing more) to conquer your to-do list another day.

12

LAUTNER

THE IDEA: CHERRY ON TOP

We had you at fashionable and functional. That cabinetry can indulge your upscale tastes without alarming your inner accountant only adds to their appeal. That's right. Dessert is served.

JORDAN

14

And then it hits you: Everything I need is right here. All of the ingredients to a healthier, happier life—easily within reach, always right where I need them. No driving or digging required.

THE IDEA: MADE FRESH DAILY

THE IDEA: SUNNY OUTLOOK

Happiness is less about which side of the bed you wake up on than the kitchen atmosphere you walk into. So choose your cabinets wisely and give yourself plenty of room—to think, to cook, to catch up, to stop and smell the Arabica beans.

LAUREL 5-PIECE

Traditional labels don't stick to today's kitchen. One moment it's preparing pasta. The next it's uncorking the cabernet and pouring out its heart to its closest friends. Salut, indeed.

THE IDEA: ROOM FOR LIVING

THE IDEA: ROASTY TOASTY

Cool, steely neutrals have enjoyed their morning in the sun. Instead, break out your best slippers, pour a cuppa joe, and cozy up with your thoughts in contemporary digs brimming with rich, brownish grays.

WESTLAKE

Several unique, Custom Choice touches grace this one-of-kind kitchen, including a wide top rail for the Crown Moulding application, custom stacking of the Transom Cabinets, and Wine Storage Cabinets topped with drawers.

Let's live to the best of our abilities rather than beyond our means. Let's trade drab and dated for warm and comfortable. Let's turn our houses into havens. And live more richly with less.

THE IDEA: UNIVERSAL MADE INSPIRATIONAL

HEARTLAND

A design pioneer, you are. Armed with prairie-inspired cabinetry and hardware, plus some rock-solid design principles, you set out to turn an inhospitable tract of interior into the mother of all meal prep territories. Hats off to you.

THE IDEA: INTERNAL FORTITUDE

True beauty is never just one thing but a combination of courage, confidence and conviction in the face of overwhelming odds—and undersized floor plans. Ready to change your world? We wouldn't put it past you.

DOVER

THE IDEA: CENTER OF ATTENTION

Effective design doesn't scream, but uses contrasting features to underscore its vision. Bold darks and silky smooth creams. Victorian embellishments and Shaker style. Stainless steel, white trim and natural flooring. Yep, we're hooked.

SEDONA

Dealer: Bruce Home Improvements

Designer: Laurel Baggett

First look. First date. First kiss. First apartment. First promotion.
 First home. First soufflé success story. First Super Bowl party.
 First week sitting the in-laws' cat. The last time you ever do that.

THE IDEA: FIRST FOR EVERYTHING

THE IDEA: LEMONADE STAND

You miss the old neighborhood and the friendly passers-by who built your confidence, one ice-cold drink at a time. But it's okay. You've found a new place to stir up conversation and store away warm memories. Now where's that sign?

MADISON

Function is the new fashion. Budgets are skinnier. And when something looks this good, and works this well, there's no need to put on airs or major additions.

36

EASTPORT

THE IDEA: SWEET SPOT

Hail the hot project's inevitable adrenalin rush. Cave to binge-watching the trendy new series everyone's buzzing about. Heed the beckoning call of that epic best seller. Whatever your leaning, your happy place awaits.

LAWRY

Store creatively using Custom Choice. Here, modified file drawers blend seamlessly with standard drawer storage to attractively address office storage needs.

THE IDEA: SHAKEN NOT STIRRED

Living rooms have received little respect as of late. Yet here is proof that kitchens need not be the sole entertainment capital of the home. Designers, the gauntlet has been thrown.

HERSHING

40

Life is filled with transitions, none more important than the finite space between the garage and the kitchen. Coats hung. Shoes removed. Worries left behind. An organized oasis in a chaotic world.

THE IDEA: DROP EVERYTHING ZONE

THE IDEA: SOUND SURROUND

Our blockbuster door style from Day One, Ogilby drew rave reviews and repeated requests for a matching 5-Piece Drawer Front. Far be it from us to disappoint our fans. Enjoy the sequel.

OGILBY

44

THE IDEA: CLEAN SLATE

Interesting how worries wash away the moment you enter a newly remodeled bath. Here everything is in its place—you included. Even darker hues feel warmer when bathed in natural light and surrounded by pearly whites.

RAINIER

46

THE IDEA: REAL EYE OPENER

Rise and shine, imagination. It's time to soak up the Shaker-inspired door and drawer fronts (or complete lack thereof). Plus, decorative feet have furniture-grade written all over them.

48

THE IDEA: NATURAL FLIRT

Yes, a bathroom can turn on the personality and charm when it's decked out with all the right details—warm finishes, artful curves and angles, a bit of shine, and plenty of natural light. Hello gorgeous, and good morning to you! It's going to be a great day.

WOOD & FINISH OPTIONS:

At the end of the cabinet making line, it all comes down to this: quality in, quality out. Of course, the same argument could be made on behalf of quantity. Why do we offer so many wood types and finishing options, you ask? Because while all our customers expect the same attention to detail, no two dreams are ever the same.

YOUR WOOD CHOICES:

MAPLE

- Subtle grain pattern
- Smooth, uniform appearance
- Color may range from creamy-white to pale, reddish-brown within a panel
- May include tiny "bird's eye" dots and mineral streaks

CHERRY

- Color may vary from tan-blonde to deep brown within a panel
- Cherry darkens naturally as it ages, blending hues from golden yellow to deep red

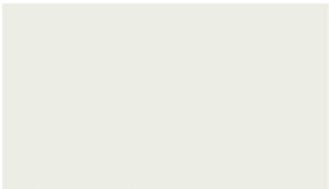

OAK

- Very strong, open-grain pattern
- Color may vary from salmon-red to dark cinnamon within a panel
- May include random worm holes, mineral deposits, knots and wild grain patterns

HICKORY/ RUSTIC HICKORY

- Strong, dramatic grain pattern
- Color may range from blonde to tobacco-brown within a panel
- Natural beauty enhanced by random worm holes and knots
- Rustic Hickory shares similar characteristics of Hickory, but may appear more dramatic in color variations, pin holes, knots, burls and color streaks.

THERMOFOIL

- Sleek surface
- Durable performance
- Carefree maintenance
- Color may change slightly over time, depending on environmental conditions

YOUR THREE FINISHING OPTIONS:

FINISHES All doors and drawer fronts for stained wood styles are hand-sanded prior to the first stain application. Stain is applied to the door and drawer fronts in an automated application using our Padlock™ roto-process finish system. They are brushed where applicable and oven or UV-cured as a drying procedure. A sealer coat is applied and develops a bond in the stain, and then sanded again. A final topcoat is applied for long-lasting protection.

FINISH AND OPAQUE GLAZES A professional layer of glaze can add another layer of beauty to your cabinets. Hand-detailed glaze application adds depth and dimension to the cabinet's appearance by highlighting the profile of the chosen door style. Hand-detailed glaze will leave a consistent, "penned" appearance around the door profile. Results yield a subtle to dramatic look based on the complexity of the door's design.

OPAQUES Opaques are different from standard wood finishes. On all wood products, expansion and contraction are typical due to change in climate conditions. Due to this normal movement, opaques may develop slight separation lines, finish breaks and seam lines. These will be most notable at stile, rail and panel joints. Joint separation may become more noticeable over time and through seasonal changes.
