# kitchens

Cook up some good looks. Kitchens today combine unprecedented amenities with bold personal style. With creative combinations from Kitchen Craft, you can put together the look and the functions that fit your lifestyle. Family dinners, relaxed entertaining, formal events, casual elegance—whatever your taste and needs, our heritage and innovation are at your service. Have an idea file? A blank slate? Either way, it's easy to imagine the look you want and make it come true. It's your recipe all the way: your ingredients are ready. To express yourself, just follow the leader.

## WOW

First look—end result, one word sums it up. With star power straight from the stratosphere, the range of smooth and sublime Acrylic finishes pair with trend-setting textured Melamines, taking design to a new height of contemporary ambiance. Families and fashionistas alike will love the interplay of color and texture when it's combined with form and function.

# awestruck

Any way you stack it, it's an exciting day when fresh color selection and modern edge treatments are yours for the choosing. Project your personality with sleek surfaces that provoke wide-eyed wonder and an element of sophisticated surprise that is no less than perfect—for any room in your home.

**Energize.** Adding visual and tactile movement within a design with both depth and texture variation intensifies the linear motion so indicative of contemporary design.

**Exhilarating.** Good design pairs with the freshest of finishes to create extra storage, definitely appealing to our practical persona. Upping the wattage on coloration enlivens a bold space for the best of both worlds.

**Effortless.** With Push-Latch mobility, just touch to open—as simple as that. Keep the clean lines of contemporary design pure and uncluttered, eliminating the necessity for decorative hardware. Simply perfect for when a minimalist look has maximum appeal.

Live each day to its fullest in a space that works hard, making it easy to have an attitude of gratitude. A generous island is perfect for prep, inviting friends and family to gather round, while the beautiful banquette extends an offer to sit and mingle. Open shelving and aluminum doors add the perfect accent for delightful living.

happy

## sunny

It's a bright new day when you can make any space work for you, with personality! Kitchen Craft's hundreds of combinations help you design your look down to the finest of details. Here, the kitchen is opened to the passage of light both inside and outside, with mouldings and cabinets enhancing a bright crispness.

**Evident style.** Yours, that is. It's easy! This moulding stack is a personal touch that defines the space with a delicate dignity. Whatever your lifestyle, Kitchen Craft gives you choices for every space.

**Character.** And lots of it in a small space. The split estate post adds a hint of classical form and carves out extra refinement while complementing the quiet lines of this kitchen.

**Sparkle.** In all the right spots. Glass doors become a unifying feature, both defining the space and connecting it to dining area and window views. Under-cabinet moulding adds depth to the corner.

Essential, but not basic, describes daily life in this easy-for-living workspace. Deep drawers bring every item directly to you with a fingertip pull of the decorative hardware. Open for family discussion, a peninsula is the perfect spot for multiple tasks, letting the cook keep tabs while multi-tasking in the kitchen.

real

bold

Adept use of textural contrast and daring color makes a striking statement. Here, Thermofoil styles harmonize in two finishes to be confident and carefree. Our distinctive stainless steel hood punctuates the open layout for a signature that's both practical and dramatic.

**Fun.** Think anti-vintage. These are not your grandmother's glass door knobs. Glass cube pulls with glass and brushed nickel bases make spots of cool on hot red doors. Their clarity works in quantity.

**Variety.** Textured glass doors with steel frames bring subdued sparkle to a streamlined kitchen. Our up-to-date embellishments are your key to making a room that is both cutting edge and highly personal.

**Verve.** Some cabinets get toe kicks, some get posts, some get legs. This kitchen gets it all: the aluminum square leg adds variety and punches up the interplay of tile, gloss and vertical woodgrain work area.

## lofty

Euro-flair, exotic woodgrain looks, and the sweep of urbane living all made possible by the smooth authority of thermofoil. A warm, quiet, yet highly distinctive look. Pamli's sophistication and flat panels are your necessary ingredients for efficient storage solutions, glamorous sightlines and a vision of modern living.

easy

What describes living in this bamboo kitchen? Easy-peasy. Bright colors and smooth surfaces anchor the trend forward, eco-friendly bamboo cabinetry, loaded with plenty of efficient storage. Who wouldn't love spending time in this pretty, uncomplicated space?

**Well-organized space**, with frequent-use items close at hand makes perfect sense for any kitchen. When a small footprint dictates a petite kitchen size, maximum storage capability is key. Make the most of vertical space with taller height wall cabinets, and add deep drawers or sliding shelves to base cabinetry for the utmost in accessibility.

inviting

**Linear.** Clean lines with a horizontal vibe are hallmarks of design-style for today. Open Shelving makes a simple statement while keeping items close at hand for everyday living.

Shaker-inspired styles have a lovely adaptability, making them useful for traditional or transitional styles. Here, symmetrically matched pairs of cabinets, open shelves and windows create a setting of simple lines in which the dramatic hood has the presence of a great piece of art.

**Bold.** Good ventilation is a must-have in every kitchen, and the bold lines of our beautifully designed wood hood is the perfect accent for any cooking space.

**Easy.** Top hinge cabinetry offers the very best in accessibility and maintains the strong horizontal lines so popular today. Stay-put hinges answer the call to action, until your task is complete.

## gracious

Two large islands establish the scale, detail and sculptural quality of this kitchen and anchor its open flow. Brookfield's profiled panels on cabinetry doors display the richness of the Espresso finish against the silvery paleness of counters and surfaces. Glass doors add sparkle and enhance the open feeling.

## modern

Smooth surfaces paired with warm woods create a modern look combined with everyday practicality. Here, the setting of simple lines and open space let your view to the world take center stage. Function is key with a tall storage tower and expansive surfaces ready to work hard so you don't have to.

# comfort

The beauty of pure function, in clean-lined forms. Our Berkeley door strikes a tone that is simple and stylish, perfect for a look that is modest, fitting for a farmhouse in the Great Plains. Wherever you choose to land, surround yourself with details that reminisce, but also aspire to ease and comfort.

**Resolute.** Who says purposeful can't be pretty? Antique copper pulls and matching knobs with back plates add plenty of rustic charm that is long on style. The easy-to-keep finish adds to their appealing practicality.

**Convenient.** Hardworking spaces speak to sensibility. Including drawers in well-located areas is a no-nonsense solution, making short work of storing small items that seem to multiply incessantly.

**Charming.** It's all in the details, with the finer points that make a house a home. Creating a wooden wall with materials typically thought of as trim items, and punctuating it intermittently with small corbels for shelf support bestows vintage charm for homespun hospitality.

## efficient

Everyone longs for a perfect work space. No matter what your allocated area is, Kitchen Craft can make your dreams come true. The horizontal lines of bamboo visually extend the cabinet run, while the linear length of the chunky concrete countertop punctuates this kitchen with panache. Add a pop of color to underscore your personality.

Styles for any scope. Tidy upgrade or glamorous new room, here are your bright ideas and fresh possibilities. Add rich drama with deep finishes, or choose texture for a pleasing touch.

versatility

A close-up photograph of a glossy red cabinet. On top of the cabinet, there is a white lily flower with a green stem and a clear glass. The cabinet has several drawers with silver handles. The background is a plain, light-colored wall.

# other rooms

Cabinets make more than kitchens. Any room in your house can have designer flair, with the Kitchen Craft versatility of styles, finishes and details. Bathroom, work room, laundry room, nook or cranny—wherever you can use some extra organization and a dash of personal style, think Kitchen Craft. From personal spa to personal space, a fine bathroom calls for vision, be it an organized retreat or an inspired staging area for nights out. You know what you need. We have the ways to make it happen.

## clever

Everyone longs for the perfect work space, and perfection is different for each person and every place. The soft coloration and subtle grain variation of Silt is an ideal complement to the contemporary lines and unique spaces presented by open plan living. With room to spread a project out, this home office matches brains with beauty.

fun

The joy of pure function is the lifeblood of rooms that were built to multi-task. Combining materials and colors that throw a cool vibe and lets your spirits soar every time you enter. Make the most of any multi-purpose space with full access cabinetry, meant to tackle any project at hand.

**Organize.** Designating areas specific to task is key to any efficient work area. A wrap station is ideal for materials pertaining to crafting and holiday events, with frequently used items visible and close at hand.

**Togetherness.** A match made in heaven. Integra's smooth Summit door is the perfect partner for Aurora's woodgrain textured thermofoil on Soho. Guaranteed to live happily ever after.

**Handy.** Kitchen Craft gives you a place to keep everything right where you need it! Open shelves and stacks of drawers let you customize storage of items just the way you like. If only we could guarantee that you'll put them back where they belong!

How nice would it be to shape a room to fit your needs! Imagine—a laundry room that doubles as command central, where a pantry, homework desk and overflow traffic live in peaceful harmony. Or what if command central occupies a corner of your living/dining space? Counter space becomes the perfect buffet or party bar, just waiting for friends to gather around!

coexist

## unwind

Relaxed and renewed. Every day can feel as serene as if a spa visit has just occurred. The woodsy richness of Flint, captured in the ease of thermofoil gives every day a sense of modern purity. Expansive counter space starts each morning with calm, and evening ends with order amid spacious storage, elegantly tucked away.

tailored

A perfect fit, filled with exacting details that make it yours alone. Choose design elements from Kitchen Craft to emulate your personality and support your mantra for personal style. With bifold doors for easy opening, granting a full view of what awaits, to stylish punctuation with metal accents, we make it easy to make it yours.

**Intentional style.**

A chair could suffice to hold a stack of shirts. Planning to store them stylishly, while providing a place to pack them adds a whole different facet to the relationship with your wardrobe!

**Statement pieces.**

No look is complete without the tie or shoes that demand a second look. Similarly, our selection of aluminum frames and glass inserts, paired with striking hardware insist on commanding your attention.

**Vantage point.** Seeking what eludes you has never been easier. Doors lift up and open wide for a full view of interior contents with easy accessibility. Even better—the metal tambour and bi-fold doors are supremely stylish when closed.

## cool

The sophisticated persona of Soho is the perfect venue for showcasing the textured thermofoil wood grain of Ore. Sleek lines and streamlined, modernist décor are lockstep with Ore's depth and coolness and adds a clear silhouette against contrasting textures and colors. Start your day with a little bit of drama, in a very refreshing way.

Soho Thermofoil Woodgrain Textured Ore

A room with a warm welcome, thanks to the cheeriness of bright countertops and mellow cabinetry. Whittington's beading, raised panels and moulding take on a gorgeous crispness through the addition of glazing.
